

# Wifi for employees and students

## Eduroam Manual - Windows 8/10

**Eduroam** (Education roaming) is a world-wide project to provide wireless access to students, researchers and university staff. These users have wireless internet access in all participating organisations, without the need to reconfigure their devices.

Network name (SSID)

**eduroam**

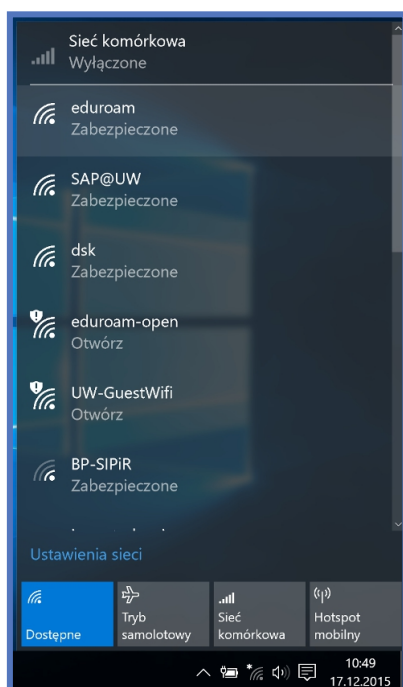

Login

**PESEL@uw.edu.pl**

Password

**same as in USOSweb.**

### Important: Change your password before first log

1. From the list of available wifi networks select "eduroam" and click the "connect" button visible below

2. In the new window, enter your login as PESEL@uw.edu.pl and your password and confirm

3. After a while connection to the eduroam network should be established
